

Generic Name: Prednisone Delayed-Release Therapeutic Class or Brand Name: Rayos® Applicable Drugs (if Therapeutic Class): N/A Preferred: N/A Non-preferred: N/A Date of Origin: 7/17/2015 Date Last Reviewed / Revised: 11/4/2023

PRIOR AUTHORIZATION CRITERIA

(May be considered medically necessary when criteria I through IV are met)

- I. Documented diagnosis of Rheumatoid Arthritis.
- II. Documented failure of an at least a 3-month trial of or intolerance to generic oral immediaterelease prednisone.
- III. Documented clinical reason containing details as to why treatment with Rayos® is necessary and why it is expected to be effective.
- IV. Refer to the plan document for the list of preferred products. If the requested agent is not listed as a preferred product, must have documented treatment failure or contraindication to the preferred product(s).

EXCLUSION CRITERIA

• N/A

OTHER CRITERIA

• Rayos® is FDA-approved for many indications; however, published clinical trials show that Rayos® has only been studied in adult patients diagnosed with Rheumatoid Arthritis. In the clinical trials, patients received Rayos® 3 mg to 10 mg once daily, with the majority receiving 5mg or less once daily.

QUANTITY / DAYS SUPPLY RESTRICTIONS

- Authorized in quantities of up to 10 mg per day.
- The quantity is limited to a maximum of a 30 day supply per fill.

APPROVAL LENGTH

- Authorization: 6 months.
- **Re-Authorization:** An updated letter of medical necessity or progress notes showing current medical necessity criteria are met and that the medication is effective.
